

LETTER OF COMMITMENT FOR THE RESPECT OF HEALTH MEASURES RELATED TO COVID-19

Considering the health context, we have been obliged to adapt the activities of the welcome week to respect the different health measures in force.

The activities will take place outdoors and are designed to avoid mixing as much as possible.

For this week to be a success, **it is necessary that each of us participates in the collective effort** by applying the barrier gestures and respecting the instructions given.

We therefore ask you to be aware **of the different barrier measures and restrictions in place**, and to apply them **throughout the week, but also throughout the school year.**¹

I, the undersigned, as a future student of INSA Toulouse, undertake to respect all the health measures put in place and to be responsible for the exceptional health situation we are going through.
