

# GODPARENT FORM

Good day to you Peculiar Potion Apprentice<sup>1</sup>. It is finally here, you were impatiently waiting for it, it has arrived: **your godparent form**. Don't panic, it is your duty to fill it out as seriously as you can, or you might risk being without a Great Dumbledore Alibi<sup>2</sup> when you arrive at your new magical school, which would be a shame for your future life at INSA, and we would be very sad to hear that.

So please read **all** the questions carefully and answer them with your heart and soul (make us dream!). Once done, using an owl or our archaic mail boxes (or by email if you live outside of France) and the addresses that you will find at the end of this amazing form, sending us your form you shall!

*P.S : Questions marked with a ⚡ sign are eliminatory.*

1. **INTRODUCE YOURSELF !!** (Surname) .....

2. **Throw in your Brand!** (Your name if you prefer) .....

3. **The day you came to be in this muggle-inhabited world** (That means your birthday)

.....

4. **Where is you from?**

- Real SOUTH (only tick if it's below Bayonne)       South  
 North (Above Montauban)       North Pole (North! Way up North!)  
 A county outside of our French lands

5. **In which manor will you live? (Circle your answer neatly and beautifully)**

The R1 dormitories / With the wonderful wizards of R2 / With the potion masters of R3 / With the half-bloods of R4 / With the noisy beaters of R7 / Far beyond the forbidden forest at R8 / Near Hagrid's hut at R5 and R6 (still closer than R8 though) / Or maybe surrounded by muggles outside campus?

6. **Which wizarding family do you belong to?**

The best quidditch players **SHN** / The huge house **Asinsa** / The welcoming hispanic wizards **Iberinsa** / The tall (and blond) Northern wizards **Norginsa** / The famous Hogwarts expatriated **Eng'Insa** / The protectors of the forbidden forest represented by the **Sup'ENR** / The fabulous artists of sections **Dance, Music Studies and Theater Studies** / With our dear **FAS** broomstick makers / Or just a Poor Pleading Amateur.

<sup>1</sup>: PPA stands for "Petit Première Année", term by which you will be called during the first week at INSA, and forever in our heart. And yes, we could have translated it to SFY ("Small First Year"), but we want you to be named like all the other little Frenchie's out there.

<sup>2</sup>: Similarly, GDA stands for "Grand Deuxième Année", because BSY ("Big Second Year") is simply ugly.

7. You now come face to face with the mirror of Erised, show us what you desire most in this world? The box below is for you to fill with drawings, pictures, happiness or simply magic.

8. Rate these activities according to your passions to show us what kind of wizard hides behind this form. Your rating must be done in an anti-decreasing way := what you like best to what is less interesting to you.

To cook sausages on a concave cylindrical barbecue with a radius of curvature  $R$  and supported by three legs under the Coriolis force, knowing that sausages are mainly composed of phospholipids and B-galactosidase for the meat (73.69% of its total mass), of saturated fats (25.30%) and of latex and Vaseline for the sausage casing, compute the heat  $Q$  exchanged between the system - considered physicochemical, open, thermoelastic (all in all, the sausages) – and the ember of the barbecue. Give your result with a Taylor Lagrange remainder. (You can use Bolzano-Weierstrass theorem and K-lipschitz functions to help you).
